28-3-3

DO NOT USE ON ST. AUGUSTINEGRASS,
FLORATAM, DICHONDRA, LIPPIA,
CARPETGRASS OR BENTGRASS LAWNS.

Turf Builder®
WITH
PLUS 2. WEED CONTROL

Turf Builder®

WITH PLUS 2 WEED CONTROL

The Scotts Advantage®

"If it doesn't stick, it just doesn't work!"™

- Weed killers work by entering through the weeds' leaves. Make sure to apply Turf Builder with Plus 2 Weed Control to a wet lawn, so the particles stick better.
 - Scotts Turf Builder with Plus 2 Weed Control has tiny, lightweight particles that stick to weeds far better than larger pellets of other weed killers for better weed control.
 - Plus, Scotts has All-in-One® Particles® that each contain all of the feeding nutrients and the weed control ingredient to provide consistent feeding and weed control to every square inch of your turf.
 - The result: A thick, green lawn with no weeds. Guaranteed!
- Tiny particles stick to weeds better than larger pellets

Turf Builder® With Plus 2®

*All-in-One Particles = nitrogen, phosphorus, potassium and the weed control ingredient contained in every particle

For southern lawns, use on bermudagrass, bahiagrass, tall fescue or zoysiagrass.

Ordinary Mixed Fertilizers

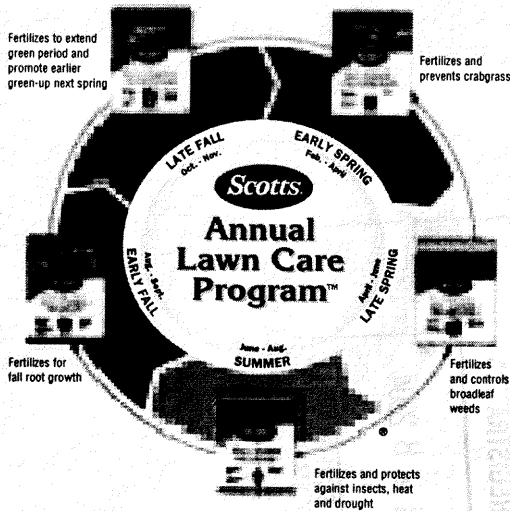

Choose the Right Product for the Situation

If you don't have weeds in your lawn, your lawn still needs to be fed to keep it thick and green. Use Scotts® Turf Builder® Lawn Fertilizer and then spot treat with Ortho® Weed-B-Gon® if weeds pop up later in the year.

For a thick, green lawn follow Scotts Annual Program.

- Start the program at any time.
- Allow 2 months between applications.

KEY PRODUCT FACTS

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Make sure that the grass is wet from dew or sprinkling before applying. (This helps particles adhere to weed leaves to produce best results.)
- Set spreader to the setting indicated by the chart on right before applying.

What To Avoid

- Do not water or mow lawn for at least 24 hours after application. (Granules must remain on weed leaves for 24 hours to be effective.)
- Do not apply if rain is expected within 24 hours.
- Do not apply if day temperatures are regularly below 60° or above 90°F.
- For maximum product effectiveness, keep people and animals off lawn after treatment.
- Apply only to grass. Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetables.
- Grass should not touch the bottom of a drop spreader. Tall grass should be mowed a day or two before application.
- Delay application on newly seeded, sodded or sprigged areas until new grass has been mowed four times.
- Do not seed, sod or plant grass sprigs until at least one month after using this product.
- Do not apply on St. Augustinegrass, Floratam, dichondra, lippia, carpetgrass, or bentgrass.
- On bahia or centipede grass lawns, wait until after the second mowing of the year, but NOT before mid-March.
- In fall, DO NOT treat centipede grass after Oct. 1, nor bahiagrass after Nov. 1.
- Apply on a calm day.
- This product applies 1.5 pounds of 2,4-D per acre per application. Do not apply more than twice per year.

Spreading Tips

Apply header strips. Then apply product in longest direction of lawn.

Spreader Settings

For best results, use a Scotts spreader.

Covers 5,000 sq. ft.

Scotts Rotary Spreaders

Each pass should be within the distance indicated below to ensure an overlap.

Scotts SpeedyGreen® & EdgeGuard® (passes within 5 feet of each other)

3 1/4

Scotts Drop Spreaders

Make sure spreader wheel completely overlaps previous wheel marks.

Scotts AccuGreen®

5 1/4

Scotts PrecisionGreen®

4 1/4

Additional Spreader Settings

EZ Drop, Republic (#530)	4 1/4
EZ Broadcast, Republic (#540)	2 1/2
Scotts Broadcast Tractor Spreader	2 1/2

First Aid and Environmental Information

CAUTION Keep out of the reach of children and pets. Causes eye irritation. Harmful if swallowed.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Avoid contact with eyes, skin or clothing. After use, remove clothing and launder separately before reuse, wash hands and exposed skin thoroughly with soap and water.

Do not allow people (other than the applicator) or pets on treatment area during application or after treatment until dust (if any) has settled.

Storage and Disposal

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

DISPOSAL: If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

First Aid

- **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
 - **IF ON SKIN:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
 - **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
 - **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment.

Environmental Hazards

Do not apply when weather conditions favor drift from target areas. Drift or runoff may adversely affect non-target plants. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

Guaranteed Analysis

Turf Builder With Plus 2 Weed Control	28-3-3	F 643
Total nitrogen (N)	28%	
9.0% ammoniacal nitrogen		
10.4% urea nitrogen		
7.8% other water soluble nitrogen*		
0.8% water insoluble nitrogen		
Available phosphate (P ₂ O ₅)	3%	
Soluble potash (K ₂ O)	3%	
Sulfur (S) (Combined)	11%	

Derived from: methyleneurea, ammonium phosphate, ammonium sulfate and potassium sulfate.
*Contains 5.7% slowly available methylenedurea and dimethylenetriurea nitrogen.
